

Note from Baneful

Hi. This is Baneful from Pojo. Trooper format (aka Troop Dupe Scoop) is the format from the March 2007 F/L list to late August 2007. The March 2007 TCG Forbidden List is used. I compiled a list of decks from tournament lists and built them out. Feel free to revise them as you wish. These decks are constructed on the honor that Crush Card Virus, widely unavailable at the time, is not used. The side decks are unfinished, so they can be completed by your own discretion. Thank you.
